# 致伸科技對供應商之要求與規範

#### **Random Compliance Checks**

No less than 15-20 suppliers will be randomly chosen on an annual basis, and a team comprised of Primax professionals and third-party instructors, will conduct in-plant verifications

Ť

#### **New Suppliers**

**Existing Suppliers** 

All new applicants have to fill out extensive data and information on Primax's GP-Portal system

For existing suppliers, annual risk reports and

questionnaires are sent to all suppliers at year-end

#### Information Cross-Check

Once the questionnaires are returned, a team of 139 related personnel (Primax 94, Tymphany 45) will carefully cross check all information

Ground crews would be sent to new suppliers for on-site verification and certification

All boxes have to be checked to meet Primax's standards

#### **Annual Checks And Teach-In**

Annually, Primax will require suppliers to attend online teach-in programs regarding safety, work and environment standards and policies

≈ 80%

of total

revenue

991 **V** R X

**Primax's Supplier Requirement And Compliance** 

#### **Primax Electronics Headquarter**

Taipei City No. 669, Ruiguang Road, Neihu District 114 Taipei City, Taiwan (886 2) 2798 9008 IR@primax.com.tw

#### **About Primax Electronics**

<u>Primiax Electronics</u> was founded in 1984 and is a leading supplier of IT, electronic and consumer solutions. The company is headquartered at Neihu Technology Park in Taipei City. Guided by the principle of "Global Operations with R&D and Smart Manufacturing in Taiwan", Primax now operates across Asia, The Americas and Europe. Highly-efficient production sites have been established in Taiwan, China and Thailand and the company has over 10,000 employees worldwide.

Seeing the potential of cloud technology and IoT, Primax has successfully developed human-machine interface products with touch, voice control, gesture recognition and wearable functions. Vision and video products have achieved notable successes in smart surveillance systems, mobile devices, smart homes, and advanced driver assistance systems. Our insistence on maintaining high yields as well as high quality in manufacturing and development is backed by our technical expertise. Our implementation of smart system engineering has also made us an indispensable partner for leading international brands and has allowed us to build up the energy needed for future growth. For the latest news from Primax Electronics, visit our website or follow us on fin •

#### Safe Harbor And Disclaimer

Primax's presentation contains forward-looking statements subject to significant risks and uncertainties. Forward-looking statements generally relate to future events or our future financial or operating performance. In this context, you can identify forward-looking statements because they contain words such as "may," "will," "should," "expects," "plans," "anticipates," "could," "intends," "target," "projects," "contemplates," "believes," "estimates," "predicts," "potential" or "continue" or the negative of these words or other similar terms or expressions that concern our expectations, strategy, plans or intentions.

Actual results may differ materially from those contained in the forward-looking statements due to risk and uncertainties resulting from a number of important factors. Such factors include, but are not limited to: our highly competitive environment; the cyclical nature of our business; our ability to develop new products; and our successful execution in new business developments, and etc. All forward-looking statements in this presentation are based on information available to us as of the date hereof, we undertake no obligation to update these forward-looking statements for new information, future events, otherwise, or update the reasons why actual results could differ materially from those anticipated in the forward-looking statements, even if new information becomes available in the future.
